RPI is a leading advisory, business development and communications company specializing in the energy industry of Russia, the Caspian region, Eastern and Central Europe. Founded in 1992, RPI has extensive and diverse experience in serving governments, investors, contractors and financial institutions in support of their oil, gas and power projects in the region.

The company’s expertise extends to all major sectors of the oil and gas industry, including exploration and production, transportation and exports, refining and petrochemicals, infrastructure, equipment and services.

Based on the company’s 25 years experience RPI successfully develops a business line of organizing industrial forums and conferences.

RPI is focused on organizing events with a high quality of content. Due to this approach, the level of participants of all the events is invariably high, and the participants’ and guests’ evaluations are always positive. Officials of the leading Russian and foreign companies, public and governmental organizations’ representatives of high rank as well as top managers of financial and investment companies and organizations participate in the conferences held by RPI.

RPI has held more than 85 events in Russia, CIS countries and many foreign countries covering all major aspects of the energy industry.

Key topics of the annual events held by RPI are:
- Oil and gas export from Russia and countries of the Caspian Region
- Oilfield services and equipment for Russian oil and gas industry
- M&A in Russian oil and gas industry
- Russian offshore
- Lubricants, greases and coolants market in Russia, CIS and foreign countries

Every year RPI develops new topics for the conferences to be organized. The company constantly works on further improvement of the events’ quality to comply to the maximum with delegates’ and partners’ expectations.
Conference “Metalworking Fluids and Industrial Lubricants in Metallurgy, Metal Processing and Machine Building” (MWFIL 2017) is the unique platform for the industry to meet and exchange ideas, plan and discuss future projects - both for fluids suppliers and end users from metallurgy, metal processing and machine-building.

THE CONFERENCE GREETS

- Formulators of metalworking fluids and all kinds of industrial lubricants, including preservative, impregnating and quenching oils;
- Technology developers for ferrous and non-ferrous metals processing;
- Industrial equipment users from various Russian industries;
- Service and technical staff using industrial energy and compressor equipment;
- Senior technical managers from Russian enterprises and and their staff members;
- Representatives from the leading Russian technical and research institutions;
- Russian and foreign suppliers of MWF’s, industrial fluids and related products;
- Industrial equipment users from various Russian industries;
- Technology developers for ferrous and non-ferrous metals processing;
- Purchasing managers from Russian enterprises.

CONFERENCE AUDIENCE

You are kindly invited to participate in the International Specialized Exhibition “TECHNOFORUM - 2017: Equipment and Technology for Processing of Construction Materials”

REGISTRATION FORM
"Metalworking Fluids and Industrial Lubricants in Metallurgy, Metal Processing and Machine Building 2017"
October 23

* Special "early bird" delegation fee is available till July 31, 2017

We offer you a unique opportunity that will help your company address challenges and reach targets in the most effective way. Working together with RPI you will develop a custom sponsorship package that will only include the services that will be most effective for your company in terms of price-quality ratio.

Depending on your objectives and preferences, the RPI team is ready to work out a customized format for your participation to produce the maximal benefit for your company.

DO YOU WANT TO BE A KEYNOTE SPONSOR?
SEND US A REQUEST FOR SPONSORSHIP PACKAGES!

SPONSORSHIP OPPORTUNITIES

We invite you to submit a presentation proposal for the conference based on your experience and insights into the industry. Use this unique opportunity to share your professional expertise and achievements with your peers from around the world, make important business contacts and find out about the most recent news in the industry.

Depending on your objectives and preferences, the RPI team is ready to work out a customized format for your participation to produce the maximal benefit for your company.

For more information on making a presentation, please, contact Elena Konstantinova:
